Tour #H2 Hawaii Volcano Adventure

(Combined with H2 Day Tours)

Mark Twain called it, "a scene of wild beauty". Just as it was for Twain over a century ago, this is truly the experience of a lifetime!

The recent eruptions of Hawaii's Kilauea Volcano in Volcanoes National Park have captured the world's imagination. This narrated Volcano Adventure features a hike over the lava flow that covered the village of Kalapana and famous Kaimu black sand beach in the 1990's. You will experience a short walk out to the newest accessible black sand beach which takes you over an area that was once the ocean. Look to the east and see the slopes of Volcanoes National Park where, if there is any surface lava flow, you may see steam or lava coming down towards the sea. You will explore Volcanoes National Park, Jaggar Museum, Thurston Lava Tube, Kilauea Iki Crater and Lava Tree State Park. This excursion continues on to majestic Rainbow Falls where the rushing water interacts with the golden sunshine to create rainbows. You will visit a colorful anthurium and orchid nursery where you will discover these exotic blooms.

Lava viewing conditions change daily and we do not guarantee the viewing of active lava flow. The approach involves hiking over rough uneven lava surfaces. Passengers with asthma or other respiratory problems should consider our H-1 tour to avoid potential health problems due to exposure to fumes. Covered walking shoes, and a light jacket/sweater/poncho are recommended as the weather conditions may change through out the course of the day.
